

**St. Peter's Episcopal Church Worship Guidelines**  
**As of July 30, 2021**

- Based on current CDC guidelines, we urge all persons (regardless of vaccination status) to wear masks that cover both mouth and nose during worship services due to the high transmission rate of COVID in our area. If you do not have a mask, one can be provided for you.
- Only vaccinated persons may sing indoors.
- We continue to ask that those who are not vaccinated maintain at least three feet of social distance from other households. Our ushers can assist with seating, if you would find that helpful.
- Holy Communion, for now, will still be offered in one kind—the Consecrated Bread.
